Noon (part 4)

[۱۲:۵۹] **ولما جهزهم بجهازهم** قـال ائـتـونـي بـاخ لـكم من ابـيكم الا تـرون انـي اوفي الـكيل و انـا خير المـنـزلـين

[12:59]   After he provided them with their provisions, he said, "Next time, bring with you your half-brother. Do you not see that I give full measure, and treat you generously؟

[۱۲:۷۰] **فـلما جهزهم بجهازهم** جعل الـسقـايـة في رحل اخيـه ثم اذن مؤذن ايـتـهـا الـعـيـر انـكم لـسرقـون

[12:70] When he provided them with their provisions, he placed the drinking cup in his brother's bag, then an announcer announced: "The owners of this caravan are thieves."

Quran is full of design notes that increase our certainty day to day.Nun letters (Noon and Waw) confirm verse numbering of Quran.Many of verses in Quran starts with letter **Waw**.GOD almighty has designed **Nun** letters for confirming text and verse numbering of Quran .In many places GOD has used the one phrase in two forms.For example in the verse 12:59 GOD has used **WaLama**(**ولما جهزهم بجهازهم**) and in 12:70 has used **FaLama**(**فلما جهزهم بجهازهم**). In Arabic sometimes letter **Fa** (ف) is used instead of **Waw** (و).I don't discuss about syntax reasons. The mathematical reason is discussed.The question that arised here is Why GOD has used one phrase in two forms? Why one phrase is differnet in 12:59 and 12:70 ?

1.
1-1-
The two verses 12:59 and 12:70 are in sura 12.Now consider all verses in Quran that starts with letter **Waw**.In such state we have only **5** suras that number of verses (that start with Waw) are factor of **19**.For example in sura 54 , there are 19 verses that start with letter **Waw**.The below table Show the result.

Seq.	Sura number	Count of verses in sura that starts with letter **Waw**
1	9	**38 (19*2)**
2	12	**38 (19*2)**
3	13	**19**
4	51	**19**
5	54	**19**
Total count of verses		133 (19*7)

1

You can see that sura **12** is one of those 5 suras that 38(19*2) verses of it starts with letter **Waw**.It is interesting that in total Quran there are **133(19*7)** verses with the above property. 133 is count of letter Noon in sura 68 too.Now we understand why GOD in verse 12:59 has used **Wa**Lama(ولما جهزهم بجهازهم) and in 12:70 has used **Fa**Lama(فلما جهزهم بجهازهم).

1-2-

Another note that confirm this matter is that verse 12:70 has **4** Noon and **2** Waw.

[۱۲:۷۰] فـلـمـا جهـزهم بجهـازهم جعل الـسقـايـة في رحل اخيـه
ثم اذن مؤذن ايـتهـا الـعير انـكم لـسرقـون

[12:70] When he provided them with their provisions, he placed the drinking cup in his brother's bag, then an announcer announced: "The owners of this caravan are thieves."

Now consider all verses in total Quran that have **4 Noon** and **2 Waw**.In such state we have 133(19*7) verses.133 is total count of Noon in sura 68 too.If word **FaLama (فـلـمـا)** in 12:70 was with letter **Waw** instead of **Fa** , the above calculation would be false.

Is it only chance???</div>

Those 133 verses:

2.

Now consider all verses in Quran that starts with letter **Waw** or **Noon**.In such state we have only **4** suras that number of verses (that start with Waw or Noon) are factor of **19**.The below table Show the result.

Seq.	Sura number	Count of verses in sura that starts with letter **Waw** or **Noon**
1	9	**38 (19*2)**
2	13	**19**
3	17	**57 (19*3)**
4	51	**19**
Total count of verses		133 (19*7)

It is interesting that in total Quran there are 133(19*7) verses with the above property. 133 is count of letter **Noon** in sura 68 too.Has remained any doubt about mathematical design of Quran ?

GOD be glorified!!!!

Praise be to God, Lord of the universe.

There is no other god except GOD

Our worship practices, our lifes and our deaths, are all devoted absolutely to GOD alone
